(dancers must be at least 10 by January 1st, 2022)

What to expect at auditions:

Each dancer will participate in warmups and stretching, technique across the floor and in the centre and learn the audition combos. During auditions, dancers will be put in groups to perform each combo and required technique move along with a bonus trick of their choosing.

We'll have one Blue Heat team however dances will be structured and taught to those with the best ability. All dancers auditioning will be taught the same two routines. We will fairly score everyone, with their scores determining whether they are a team member or alternate. Dancers not receiving the minimum score required will not make the team but should continue working on their skills and technique in class and audition again next year! 😊

Every dancer is auditioning for a spot on our team. Former Blue Heat dancers are **not** guaranteed a spot on our new team however previous dance experience, dancer's attitude, behavior, commitment level, as well as current audition performance will be considered when selecting our new teams.

Technique required:

right and left split leaps
right and left center leaps
